Spring/Summer 2012

Spring/Summer 2012 was inspired by the Medieval trial of Katherina Hetzeldorfer in 1477, especially images of the jurors and overall art around that period, with the richness of colours/textures and somber moods on the faces of the subjects.

Soft, but deep mood is in the colour story. Prints have been specially designed for this collection, with references to art and architecture including forest scenes, castle towers, Gothic spires, and flooring. All are printed on pure 100% Cotton and Silks.
